

**Lighthouse School®
300 Cluster Newsletter
February 2010**

Notes from the Homeroom:

The month of February was an exciting month for our students at Lighthouse School. The students participated in many fun activities and events. There were lots of tokens being earned this month. Students had the opportunity to spend their hard-earned tokens on motivational activities such as Rock Band, an open mic competition, a cluster activity and items in the AMP store.

Our Varsity and Junior-Varsity basketball teams have been working hard with Mr. Bishop, Mr. Linskey, Mr. Rivela and Mr. Winget to develop sportsmanship skills in games as well as daily practices. Go Breakers! Also, our intramural basketball program has given boys and girls from the 300 Cluster a chance to show off their skills on the court.

Academically, the 300 Cluster students have begun Quarter Three. They are now participating in Health Education twice a week, Skills for Success as an elective and taking MCAS tests. Also, students in our TWEP program were able to enjoy this fantastic winter season with trips outside of the building. The 300 Cluster homerooms continue to work on relationship building and focused on achieving third quarter goals. Students are looking forward to our annual Scholastic Book Fair, March Madness basketball, and many other fun activities coming up.
