

Hello,

We wanted to take a moment and notify you that we have expanded existing licenses that we had at Lighthouse School for the iXL program. iXL is an immersive program that students engage in to improve confidence and skills in different content areas. Our licenses stretch across iXL Math, iXL Science and iXL Social Studies. The iXL Math program spans PK-12th grade, iXL Science 2nd-8th grade, and iXL Social Studies 2nd-8th grade. Although These grades may not fall in your child's school grade, the purpose of it is to support not only retaining skills, but bridging gaps in learning. Completing the Diagnostic Test within the program will help determine areas for deepen and improve understanding which will strengthen the ability to progress when new and future concepts are presented. Attached you will find a resource to help support in some of the initial features to access, such as the Diagnostic Test, in order to support student baseline assessment as well as ongoing learning.

To log into ixl, you can follow these steps:

1. Open your internet browser
2. Type in ixl.com
3. In the top right corner you will see a place for username and password
4. Your username is your last name and first initial@lighthouse
 - a. For example, if your name is John Smith, your username is smithj@lighthouse
 - b. Your computer may eventually autofill the "@lighthouse" part, but ensure it is added when you log in
5. Your password is "student"
6. If you should encounter difficulty with the program or logging in, please reach out to our technology support desk at techsupport@lighthouseschool.org and someone will happily help you!

We hope you and/or your child find iXL to be a useful support to their retaining of academic skills and deepening understanding of previously learned material.
