Recommendations

### Let IXL recommend skills for you

For even more learning opportunities, encourage your child to choose skills from their Recommendations Wall, filled with skills selected just for them based on what they've been working on!

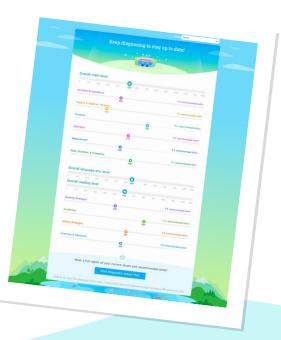

#### Get a personalized action plan for growth

Super-charge learning with the Real-Time Diagnostic! It shows you what your child knows, and exactly what they can do next to make even more strides.

Pinpoint diagnostic levels Have your child answer questions in the Diagnostic to show what they know! We recommend they do so until they've pinpointed all of their levels, which usually takes less than an hour per subject, and can even be done over the course of a few sessions.
